## Product Description

### Product Description:

Stainless Steel Sheet Plate is made of cold rolled 304 stainless steel sheet and 410 stainless steel sheet, which is a kind of stainless steel material with excellent corrosion resistance, high temperature oxidation resistance, and good toughness. The stainless steel sheet plate has a minimum order quantity of 2 tons and a maximum supply capacity of 1000 tons per month. It is available in different shapes, such as sheet plate, and has a thickness of 0.01-200mm and a length of 1000-12000mm. The 410 stainless steel sheet plate has a high strength and hardness, and is commonly used for manufacturing kitchen sinks, medical equipment, construction materials, and more.

### Applications:
